WHY YOU SHOULD REGISTER

Lateral violence is a key barrier to socio-economic development within Indigenous communities. The purpose of this workshop is to provide participants with advanced skills to interrupt and redirect situations of lateral violence, in a way that models courageous kindness. Our main focus is on the lateral violence that erupts within Indigenous workplaces and communities, but the skills you learn can be applied in other settings.

WHO SHOULD REGISTER

- Anyone who has already taken our introductory 2-day workshop on transforming lateral violence into lateral kindness.
- Anyone who wants to develop advanced skills to deal with situations of lateral violence.
- Leadership and staff working for a First Nation government or organization.
- Anyone working in collaboration with First Nation governments or organizations.
- Indigenous and non-Indigenous people alike - everyone is welcome!
